Podcasting for Fun & Profit

Join the podcasting revolution! Podcasting is an easy and powerful way to communicate your ideas and messages. This course is intended for individuals that are interested in using new media technologies to reach those that are interested in the same topics and issues, and also businesses that would like to use podcasting as a way to teach customers how to promote services and products or supplement training activities. A product is a series of digital media files (either audio or video) that are released episodically and downloaded. The content can be assessed using any computer capable of playing media files. Participants in this class will learn what podcasts are, how to create them, and how they are promoted and distributed.

SCC BURLINGTON, RIVERPARK PLACE (ROOM 110) 6 sessions: Thurs, Mar 25 - Apr 29, 6:00-8:30pm

Modern Marketing Methods

While tried and true marketing techniques may still yield results, modern marketing methods can help take your small business to the next level. Connect with your customers like never before with the use of Internet technologies. We'll explore how to use Twitter, Facebook, email and the web to build your reputation, improve interaction with the community, and promote your products and services.
